# ABOUT MediCOLL

MediCOLL Learning online learning platform that encourages interaction and knowledge sharing among participants. Through discussion forums, live webinars, and virtual networking events, you can connect with fellow learners from around the world. This collaborative approach not only enhances your understanding of the subject matter but also provides opportunities for networking and building professional connections within the medical community.

In today's fast-paced world, online learning platforms have revolutionized education, making it more accessible and flexible. Medicoll Learning is an innovative online learning platform that serves the needs of medical professionals, MBBS graduates and Non-MBBS graduates, who aspire to pursue specialized fellowship courses. With a commitment to deliver high-quality education, Medicoll Learning offers a wide range of fellowship programs designed to enhance the knowledge, skills, and career prospects of medical professionals. One of the key advantages of MediCOLL Learning is its online learning format. This allows you to access your fellowship courses from anywhere, at any time, and at your own pace. The platform provides a user-friendly interface with a variety of learning resources, including video lectures, interactive quizzes, and case studies.

MediCOLL Learning places a strong emphasis on delivering high-quality medical education. The organization collaborates with renowned medical experts and practitioners to develop and deliver cutting-edge educational programs. By leveraging the expertise of industry leaders, Medicoll Learning ensures that its educational offerings are up-to-date, evidence-based, and aligned with the latest advancements in medical science and practice. The organization recognizes the importance of interactive and engaging education, incorporating a variety of teaching modalities such as case-based learning, simulations, hands-on workshops, and virtual learning platforms. These methods foster active participation, critical thinking, and practical application of knowledge, ensuring that learners are well-prepared to address real-world challenges. These fellowships provide healthcare professionals with advanced clinical training, research opportunities, and mentorship, enabling them to excel in their chosen specialties. The comprehensive nature of these fellowships equips participants with the skills and knowledge required to become leaders in their fields.

# TRAINING

# ACADEMIC PARTNER MANGALAYATAN UNIVERSITY

To be a leader in education, an institution must be founded on two basic principles: keeping the interest of students as its foremost priority and recognizing that knowledge is ever-growing, omnipresent and requires the opening of minds.

At Mangalayatan University, we take pride in these two qualities being at

the core of our existence. Mangalayatan (translated as the germinal bed of positive thought) aims to perpetuate a culture of hardwork, embracing change and preparing oneself for the fast progressing world with the latest skills and the highest level of social and personal values. Situated 20 km from the Yamuna Expressway in Uttar Pradesh, Mangalayatan University was founded in 2006 and has graduated over 7000+ students. Nearly 3500+ students from India and abroad are currently studying on campus.

Mangalayatan University vision is to give students from all kinds of background, a quality educational experience leading to legitimately rewarding career opportunities.

# WHY CHOOSE US?

- ✔ Globally Accredited Curriculum
- ✔ Hassle free admission, delivery and assessment
- ✔ International Accreditations
- ✔ Highly Experienced Faculties
- ✔ Clinical observership with leading Hospitals
- ✔ Fast Career Growth
- ✔ Easy EMI options available

# CHILD HEALTH

Child health refers to the comprehensive well-being of infants, children, and adolescents, encompassing their physical, emotional, and social development. It is a critical area of healthcare that focuses on promoting healthy growth and development while preventing and managing diseases and conditions that can affect children.

Top Pediatricians created our "Certificate in Child Health" to encompass clinical characteristics, evaluation, and diagnosis for precise diagnostic testing, ensuring expertise and utmost confidence in child care.

## GLOBAL INSIGHT

Globally each year, 7.9 million babies are born with severe birth abnormalities

Almost 50 million Indian children suffer from chronic disorders

The child mortality rate in India was 26 per 1000 live births in 2023

Child health encompasses the collective efforts and challenges faced in improving the health and well-being of children around the world. Despite significant advancements in medical science and public health, millions of children still suffer from preventable diseases, malnutrition, and inadequate access to healthcare services.

# COURSE OUTCOMES

## UPON COMPLETION OF THE PROGRAMME ONE SHOULD BE ABLE TO...

02

Certificate in Child Health provides healthcare professionals with specialized knowledge in pediatric care, including children's physical, emotional, and developmental needs. This enhanced understanding equips providers to deliver better care tailored to the unique requirements of young patients.

03

Professionals are better prepared to identify, assess, and manage common pediatric health issues by focusing on child health principles.

02

The program typically covers critical aspects of child development, including milestones, behavioral health, and nutrition. This knowledge enables healthcare providers to better support parents and guardians in promoting healthy growth and development.

02

Participants often engage in interdisciplinary training, collaborating with professionals from various fields such as nursing, social work, and public health. This exposure fosters teamwork and improves communication skills, which is essential for delivering holistic care to children.
