ABOUT MediCOLL

MediCOLL Learning online learning platform that encourages interaction and knowledge sharing among participants. Through discussion forums, live webinars, and virtual networking events, you can connect with fellow learners from around the world. This collaborative approach not only enhances your understanding of the subject matter but also provides opportunities for networking and building professional connections within the medical community.

In today's fast-paced world, online learning platforms have revolutionized education, making it more accessible and flexible. Medicoll Learning is an innovative online learning platform that serves the needs of medical professionals, MBBS graduates and Non-MBBS graduates, who aspire to pursue specialized fellowship courses. With a commitment to deliver high-quality education, Medicoll Learning offers a wide range of fellowship programs designed to enhance the knowledge, skills, and career prospects of medical professionals. One of the key advantages of MediCOLL Learning is its online learning format. This allows you to access your fellowship courses from anywhere, at any time, and at your own pace. The platform provides a user-friendly interface with a variety of learning resources, including video lectures, interactive quizzes, and case studies.

MediCOLL Learning places a strong emphasis on delivering high-quality medical education. The organization collaborates with renowned medical experts and practitioners to develop and deliver cutting-edge educational programs. By leveraging the expertise of industry leaders, Medicoll Learning ensures that its educational offerings are up-to-date, evidence-based, and aligned with the latest advancements in medical science and practice. The organization recognizes the importance of interactive and engaging education, incorporating a variety of teaching modalities such as case-based learning, simulations, hands-on workshops, and virtual learning platforms. These methods foster active participation, critical thinking, and practical application of knowledge, ensuring that learners are well-prepared to address real-world challenges. These fellowships provide healthcare professionals with advanced clinical training, research opportunities, and mentorship, enabling them to excel in their chosen specialties. The comprehensive nature of these fellowships equips participants with the skills and knowledge required to become leaders in their fields.

TRAINING

ACADEMIC PARTNER MANGALAYATAN UNIVERSITY

To be a leader in education, an institution must be founded on two basic principles: keeping the interest of students as its foremost priority and recognizing that knowledge is ever-growing, omnipresent and requires the opening of minds.

At Mangalayatan University, we take pride in these two qualities being at

the core of our existence. Mangalayatan (translated as the germinal bed of positive thought) aims to perpetuate a culture of hardwork, embracing change and preparing oneself for the fast progressing world with the latest skills and the highest level of social and personal values. Situated 20 km from the Yamuna Expressway in Uttar Pradesh, Mangalayatan University was founded in 2006 and has graduated over 7000+ students. Nearly 3500+ students from India and abroad are currently studying on campus.

Mangalayatan University vision is to give students from all kinds of background, a quality educational experience leading to legitimately rewarding career opportunities.

WHY CHOOSE US?

- ✔ Globally Accredited Curriculum
- ✔ Hassle free admission, delivery and assessment
- ✔ International Accreditations
- ✔ Highly Experienced Faculties
- ✔ Clinical observership with leading Hospitals
- ✔ Fast Career Growth
- ✔ Easy EMI options available

PEDIATRIC DERMATOLOGY

Pediatric Dermatology is a specialized branch of medicine focused on diagnosing and treating skin disorders in infants, children, and adolescents. This field addresses a wide range of conditions, from common childhood issues like eczema, acne, and diaper rash to more complex diseases such as psoriasis, vascular malformations, and congenital skin disorders.

Top Pediatric Dermatologists created our "Certificate in Pediatric Dermatology" to encompass clinical characteristics, evaluation, and diagnosis for precise diagnostic testing, ensuring expertise and utmost confidence in child care.

GLOBAL INSIGHT

Pediatric dermatology is witnessing a notable increase in skin diseases among children in India.

Rapid urbanization and increasing pollution levels contribute to a rise in skin problems among children, including allergic reactions.

Fungal infections, such as tinea capitis and candidiasis, are common in Indian children, especially in humid climates.

Emerging trends in pediatric dermatology include a growing emphasis on teledermatology, which expands access to care for children in remote or underserved areas, and the integration of dermatological care into primary health services.

LEARNERS TESTIMONIAL

Dr. Santosh Kamble

Best learning platform that keeps you updated with latest clinical methods.

Dr. Maheeb Rehman

Wonderful opportunity for Doctors who really want to improve their skills with knowledge

Dr. Aman Shaw

Excellent faculties & much informative study material with practical learning. I am truly impressed

COURSE MODULES

MODULE-1

Paediatric Dermatology-I

- Neonatal Rashes
- Congenital Melanocytic Naevi
- Capillary Malformation
- Infantile Haemangioma (Strawberry Mark)

MODULE-2

Paediatric Dermatology-II

- Venous Malformations and Their Management in Children
- Childhood Lymphatic Disorders
- Infantile Seborrhoeic Dermatitis
- Eczema Herpeticum
- Phytodermatitis

MODULE-3

Paediatric Dermatology-III

- Viral Exanthemas
- Viral Exanthemas and Kawasaki Disease
- Staphylococcal Scalded Skin Syndrome (SSSS)
- Head Lice
- Infantile Psoriasis
- Facial Lumps and Bumps: Pilomatrixoma
- A Cutaneous Lump in a Child

COURSE OUTCOMES

UPON COMPLETION OF THE PROGRAMME ONE SHOULD BE ABLE TO...

01

Certificate in Pediatric Dermatology provides healthcare professionals with in-depth knowledge of skin conditions specific to infants, children, and adolescents. This specialization enhances their ability to accurately diagnose and treat a wide range of pediatric skin disorders.

02

The program typically includes practical training and hands-on experience, allowing participants to develop essential clinical skills for assessing and managing pediatric dermatological conditions effectively.

03

Participants in the certificate program often engage in interdisciplinary learning, collaborating with other healthcare providers, such as pediatricians, allergists, and dermatological surgeons, to deliver comprehensive care to young patients.

04

The program often facilitates connections with fellow professionals and experts in pediatric dermatology, fostering a supportive community for sharing experiences, challenges, and resources in the field.

ADMISSION PROCESS

Eligibility

- ✓ MBBS/MD/PHARM-D
- ✓ Practicing Physicians
- ✓ MD and DNB/FNB residents
- ✓ Medical Students who are in their final year can also apply.

Steps to Apply

Registration

Fill the application form and submit relevant documents

Fee Payment

Proceed with the fee payment after submitting the application form

Get Started

Once the application form is received along with documents and course fee, we will provide the login details to access the course

- ✓ Course duration – 1 Month
- ✓ There will be an extra charge for the extension of the course validity.
